Further information

About me

1+ year of work in a worldwide company (USA, Portugal, Russia). Developing and implementing new functionalities for web and mobile projects using HTML, CSS, JavaScript, TypeScript, React+Redux, React Native.

Searching for a new job because my skills and competentions outgrows my current role and right now my company cannot suggest me another position.

Before becoming a developer I had experience of team management in sales. From March 2020 I started to learn web, Javascript, React.js and create several projects for portfolio on React.js and JavaScript. You can look at them on my portfolio page https://bthrsn.github.io/react-portfolio/ or Github https://github.com/bthrsn
